FAMILY LAW CPD –

2 CPD POINTS

FREE TO ATTEND

With the need for testing to be conducted in the majority of care proceedings, this CPD presentation offers attendees the truth about testing and result interpretation helping make sense of what is written in reports.

TOPICS COVERED INCLUDE:

- How hair testing actually works
- The danger of ignoring the use of averages in tests
- The effect of previous drug use on test results
- How chemical treatments give misleading information
- Passive drug exposure and contamination
- Hair growth rates and sleeping hair
- Alcohol Abuse and Abstinence testing
- Legal Highs and Designer Drug abuse
- The next generation of DNA testing
- Why up to 30% of tests are incorrectly interpreted for court
- Prescription drug abuse and cases of doping children

WHY THIS TALK IS SO IMPORTANT

Hair Drug, Alcohol and DNA testing has changed over the past 12–18 months. The majority of solicitors, barristers and courts are unaware of not only what testing should be ordered but also how to correctly interpret results or challenge the evidence.

Most people read the results from hair drug and alcohol testing as black or white, when the opposite is actually true. **Understand in simple terms why your clients sometimes end up with unexpected results.**

Learn to challenge the evidence and see why up to 30% of hair alcohol tests are currently interpreted incorrectly and how this is directly affecting your clients.

TESTING LIMITATIONS EXPOSED IN FULL

We've spoken to many family teams who've attended training by other presenters in the past. These presentations simply highlighted how the testing worked. No other presentation covers all the limitations of testing, what to truly request when booking a test or how to challenge the results.

CPD EVENT FEEDBACK

Join thousands of solicitors, barristers and legal professional across the country who have experienced and gained critical knowledge to support their cases.

Feedback from all events carried out to date show 100% of attendees found them either Excellent or Very Good;

98.1% – Excellent

1.9% – Very Good

The best CPD event I have been to in my 10 years of private practice

SOLICITOR, NEWCASTLE FAMILY LAW TEAM

I am staggered that so many tests are conducted incorrectly

PARTNER AND HEAD OF CARE AT LEADING LONDON FIRM

The talk has opened my eyes to the fact that solicitors like myself and the courts have misunderstood this testing and it concerns me how many cases may have been affected

SENIOR PARTNER, LAW PRACTICE LIVERPOOL

It's really helped me know the details wording and what to look for

CRIMINAL SOLICITOR, BIRMINGHAM

A fantastic presentation on a topic we rely upon but don't really understand! When is the next one?

SENIOR PARTNER, LEADING CRIMINAL PRACTICE
